

EARLY EDUCATION LIVE UNITED

JEREMY'S STORY

When Jeremy started looking for an early education center for his twin daughters Addison and Kaelin, his focus was finding a high-quality center that would help them be successful in school. As soon as they walked into Henderson Christian Academy Jeremy knew he wanted his daughters to attend preschool there.

For many single parents like Jeremy, however, a quality early education isn't in the family budget. With two daughters and the cost of child care rising, he wasn't sure he could afford to send them to prekindergarten and thought he would have to rely on his family's help to care for them while he worked at night.

Thanks to United Way's partnership with early education centers throughout the community, Jeremy is getting the financial help he needs to prepare his children for success from an early age. Both girls are playing, learning and growing at HCA, and Jeremy knows they'll be ready to start school with the educational foundation they need.

OUR GOAL:

Increase the percentage of children able to read proficiently by grades 3 and 4 in schools and neighborhood zones falling below the average proficiency rate of 46.7%.
