United Way
Dear Friends,

We are excited to present to you our bold vision for the future of United Way of Southern Nevada. Thank you for all of your input and contributions in creating our Strategic Plan. This five-year plan is the result of thoughtful planning and strategic sessions that brought our community together to help define the future of our United Way.

United Way's unique value is the ability to harness the energy of tens of thousands of stakeholders in our community to collectively take on our biggest problems and make a measurable impact.

We work closely with people like you to unite our community and improve people's lives. Together we create positive change by solving complex community problems. We are one organization collaborating with many to create a better community for all.

United Way brings these organizations together to discuss issues affecting our Valley, create a common agenda and align activities to drive lasting, community-wide change.

We invite you to engage in the collective effort to make Southern Nevada the best community that it can be. Thank you for your commitment through your support of United Way. Whether you make a financial investment in United Way, volunteer, or participate in our community work, you are a part of the change that we are creating in the community.
